

A Little Bit About The Photographer

Les Woodrum got his start in the Danville area working for local studios and photo labs back in 1975. Since then his experience has included:

- Scientific Research Photographer
- College Photography Instructor
- Portrait Studio Owner
- Photo Lab Manager
- Communications Specialist
- Photo Editor
- Corporate/Industrial Photographer

Besides his commercial experience, Les Woodrum's photos have been published in countless publications. He also exhibits his fine-art photography in numerous galleries and museums throughout the country.

Woodrum-Media has very competitive hourly rates, excellent service, quick turnaround, and the finest in artistic quality commercial photography in the Mid-west.

Call Les at 217-443-4403 to quote your next commercial photography needs.

COMMERCIAL PHOTOGRAPHY SERVICES

Woodrum-Media specializes in providing commercial and industrial clients the professional photographic support needed to promote your business. Les Woodrum has over 35 years experience in Commercial Photography plus experience in graphic art production, photo lab production and web page design.

Woodrum-Media specializes in location photography, so the studio can come to you. Whether your need is digital images for web page use or large format prints for product display, **Woodrum-Media** can produce the images you need.

Portrait Photography

Staff portraits, promotional photos, awards, directories, group photos: there are many reasons you need quality portraits of your staff.

Woodrum-Media can bring the studio to you.

Commercial Photography

Whether it be small products for catalogs or on-line sales, large industrial machines for advertising, studio shoots at the customer location, photojournalistic assignments, whatever your photographic

need — **Woodrum-Media** can provide you with the photographic expertise you demand.

Custom Lab Services

Do you need large color display prints for a trade show display? Posters to show your business off? Or maybe you have old negatives you want printed.

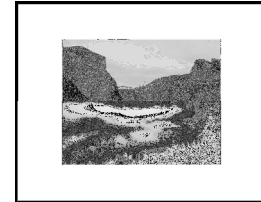

Woodrum-Media features it's own in-house digital photo lab that can produce color prints at almost any length up to 24 inches wide. Woodrum-Media's lab also specializes in custom black and white printing that can provide traditional black and white museum quality prints using archival paper and methods. We can also scan negatives, prints and transparencies and do any Photoshop needed.

Fine Art Photography

Needing décor for your office? Consider an art print photographed by Leslie A. Woodrum. Many prints are in private collections and his photos have been exhibited nationally.
